

# PROMOTING THE TRANSITION TO ACTIVE LIFE THROUGH GAMIFICATION AND GAME-BASED LEARNING SKILLS4LIFE

Impact plan

The purpose of the Impact plan is to provide guidelines to the Consortium in order to better understand what the project is trying to achieve with the products that will be developed, to clarify the effect and results of the project on the target groups, and to report on these achievements by setting specific indicators that the partnership will have to accomplish.

# The main question...

How can we make a difference and start something that really works?

## IMPACT ASSESSMENT REPORTS

M12

M24

## IMPACT+ WORKSHOPS

For each project result to identify the desired impact at Staff, Learner, Organisation and Systemic levels.

**Identify the desired impact or outcome for each project result**

**Identify the mechanism for assessing the level of impact achieved**

## **IMPACT+ WORKSHOPS WILL:**

**Outline whether the proposed impact at each different level is short-term, medium-term or long-term**

# IMPACT ASSESSMENT AT 4 LEVELS

## STAFF

staff of the partner organisations participating in the project

## LEARNER

learners in the local communities who participate in the planned training organisational

## ORGANISATION

# Target Groups and KPIs

We have two primary target groups – Young adults that are institutionalised and adult and community educators/social workers.

The project in numbers – our high level KPIs:

90 young adults that are institutionalised and/or in alternative care settings will be involved in the piloting implementation of the SKILLS4LIFE Serious Game

60 community educators, adult educators and social workers will be involved in the pilot implementation of the In-Service Training Programme

14 community educators, adult educators and social workers will attend the LTTA that will be held in France

210 target-group representatives will attend the SKILLS4LIFE Learning Labs

40 target-group representatives will attend the Final Conference in Austria.

# Qualitative impact

## Young adults institutionalised

Build stronger  
community networks

Reduce social exclusion

Increase active  
citizenship and civic  
engagement

Benefit from the  
acquisition of useful key  
life skills for the  
transition to autonomy

Benefit from game-  
based learning activities  
that will support the  
development of key  
skills for autonomy

Increase interaction,  
participation, and  
knowledge sharing

# Qualitative impact

## Adult, community educators and social workers

Benefit from a personalised training approach for the development of autonomy programmes for young adults

Benefit from the opportunity to learn and/or share knowledge about the personal and social inclusion of the main target-groups in a transnational setting
